Work History

Sr, UX Designer - Product Designer, (some Product Management)

Health Fidelity

Fulltime Employee

San Francisco, CA 12/2014-Current

UX Design, UI Design on HCC Scout – which combines natural language processing (NLP) and big data analytics to automatically extract valuable insights from medical charts for MA and ACA. Also designed multiple parts of the administration tool, authentication and the platform. Did requirement gathering. Co-branding. Ideation. Use of agile process with two week sprints using Confluence and JIRA. Did UX on Risk Adjustment and Care Gap applications. ROI Company has grown during my tenure from 12 to 80 employees.

UX Director, UX Design, UI Design, Visual Design, Information Architecture

PY Designs LLC

Owner

Emeryville, CA 9/2013-2015

UX Design, UI Design. Worked on business proposals and timelines. Clients have included Cognizant, a healthcare company, and PivotData, a financial group. Did UI and UX for Cognizant Admin app. Began IA, user flows and visual design on a new admin product for the Pacific Investment Management Warehouse Services LLC, with high fidelity comps as well as a responsive design for their brochure website PivotData.

UX Design, UI Design, Visual Design, Information Architecture, Front-End Development

IMS Health

Fulltime / Contract (40 hours a week for 3 years)

San Francisco, CA 10/2010-10/2013

Overhauled Blue Cross's (Premera) and Blue Shield's online provider directory. I did the UX, UI and visual design for this product. Blue Shield's NC User Experience testing group rated it at a 90% improvement. This improvement was a determining factor in Medvantage being acquired by IMS, which led to a strong ROI for stakeholders. This included mobile, tablet and desktop. For mobile and tablet I did the front-end development as well.

I was the UX, (UI and Visual Designer) for the Carefirst Quality Scorecard admin tool as well as the measure builder application Hedis. I did competitive analysis, created IA documents, conducted UX document analysis and conducted User Group interviews. I redid IMS's Analytics from XML files to high fidelity comps. I also did the mobile front-end CSS and sprites for the end-to-end flows and architecture I created.

UI Design, UX Design, Visual Design

Gradecam.com

Contract

San Francisco, CA 8-10/2010

Designed the UI on their Gradecam Web Software Application using Omnigraffle and Photoshop.

UX Design / UI Design / Skinning / Visual Design / Information Architecture

Backbase.com

Fulltime

San Francisco, CA 4/2009-8/2010

Created high fidelity design mockups in Photoshop and turned them into standards compliant CSS/HTML. Tested in all browsers including IE 6. Experience using a Javascript library database. Created wireframes based on clients needs, Optimized user experience. Skinned widgets as well as a portal. Worked with high profile clients including GM.

Visual Design / UX Design / Development

Bio-Rad.com

Contracting (ongoing 40 hours a week)

Hercules, CA 4/2004-4/2009

Did web design, UI Design, UX Design, and production on Bio-Rad web site. I designed numerous ad response site, emailers and banners. Used CSS, HTML, Javascript and Flash as well as developed Media Player videos.

Web Design / Producer

Kaiserpermanente.org

Contracting

Oakland, CA 1/2003-6/2004 Produced and designed a satellite Kaiser web site and maintained it. Did Javascript, HTML, CSS and Photoshop.

Web Design Flash / Production

Grey Advertising

Contracting

San Francisco, CA 1-5/2002

I worked on numerous Oracle banners in Flash and Fireworks. Did ActionScripting as well as png production.

Web Design

SalesJobs.com

Contracting

Oakland, CA 1/2000- 1/2001

Designed many aspects of this web site (HTML and graphics), including the pricing page, sales links department page, contact page, and the Flash world pages.

Web / Print Design

AllBusiness.com

Full-time

San Francisco, CA 1/1999-1/2000

Designed numerous aspects of this website including their weekly emailer.

Education

Bachelor of Art, University of California, Santa Barbara
